

Financial Statements for the period from January 01 to June 30 2019

Unaudited

HRVATSKA POŠTANSKA BANKA, p.l.c.

In accordance with the Capital Markets Act, Hrvatska poštanska Banka plc. publishes unaudited financial statements for the period from January 01 to June 30 2019.

This report includes:

- Management report of Hrvatska poštanska Banka plc.,
- statement by persons responsible for compiling the report of Hrvatska poštanska Banka plc.,
- unaudited set of unconsolidated financial statements (balance sheet, profit or loss statement, statement of changes in equity, cash flow statement), and
- notes to the financial statements.

Financial statements and notes have been compiled in accordance with instructions defined in Rulebook on format and content of interim financial reports of issuers (NN 114/2018).

Key highlights of results for the reporting period are as follows:

- The Bank continues with record results and thus achieved a **net profit of HRK 123.5 million** in the first half of 2019, which is 31% more than in the same period last year and represents **the best achievement since HPB was founded**,
- **operating profit** increased by HRK 27.3 million and amounted **HRK 165.2 million**;
- an increase in the Bank's assets by 9.2% as of June 30, 2019 compared to December 31, 2019, and a market share increase of 5.54% (data as of April 30, 2019);
- gross loans to customers increased by 10.0% or HRK 1.239 million, mostly in the target segments (Retail and SME), who continuously increase their share in the Bank's total gross loan portfolio;
- As of April 1, 2019 Jadranska banka plc. was successfully integrated in just 9 months from the acquisition with the positive effects of the merger,
- Optimization of the HPB Group is continued with the merger activities of the HPB-Stambena štedionica plc.

Management report of HPB plc.

The Bank successfully and within the set deadlines on 1 April 2019 merged Jadranska banka plc. after only 9 months of acquisition, which was one of the most challenging projects our team has encountered. At the same time with the involvement of a large part of resources in the integration of Jadranska banka plc., there was no lack of positive trend in financial result. Thus the Bank ended the first half of 2019 with a record half-year net profit since establishment in the amount of HRK 123.5 million, in conditions of market excess liquidity and in the environment of falling interest margins.

Long-term comparison of semi-annual net profit

Operating profit increased by 19.8% or 27.3 million compared to the same period last year, which is a result of the Bank's focus on the implementation of strategic guidelines and launched projects in the form of increased efficiency and operational excellence.

The increase in net interest income by 4.3% is a reflection of the increased number of placements and the consequent growth of gross loans, and, on the other hand, a decrease in interest expense due to continued optimization of the liability structure, i.e. the spillover from term deposits to a vista accounts.

Net fee and commission income increased by 4.8% in all three business sectors as a result of the inorganic and organic growth of the client base, as well as the activity of the client base.

Other non-interest income consists of income from trading in foreign exchange and securities, dividends received, and other income. This revenue is 102.5% higher than in the same period of 2018, mainly due to an increase in gains on securities trading due to the increase in the prices of securities in the Bank's portfolio and dividend income.

HRVATSKA POŠTANSKA BANKA, p.l.c.

Operating expenses are increasing (+ 5.4%) as a result of the merger of Jadranska banka plc. and the consequent increase in the scope of operations of HPB plc., which includes more employees, and investments in new business units in Šibenik-Knin County. Also, cost growth is inevitable due to the launch of strategic projects that we focus on - process optimization and aim to achieve cost savings in the coming periods. However, in spite of this growth, we are working on a continuous reduction of cost pressures on operating profit, so the C/I indicator has improved by 3 percentage points compared to 2018.

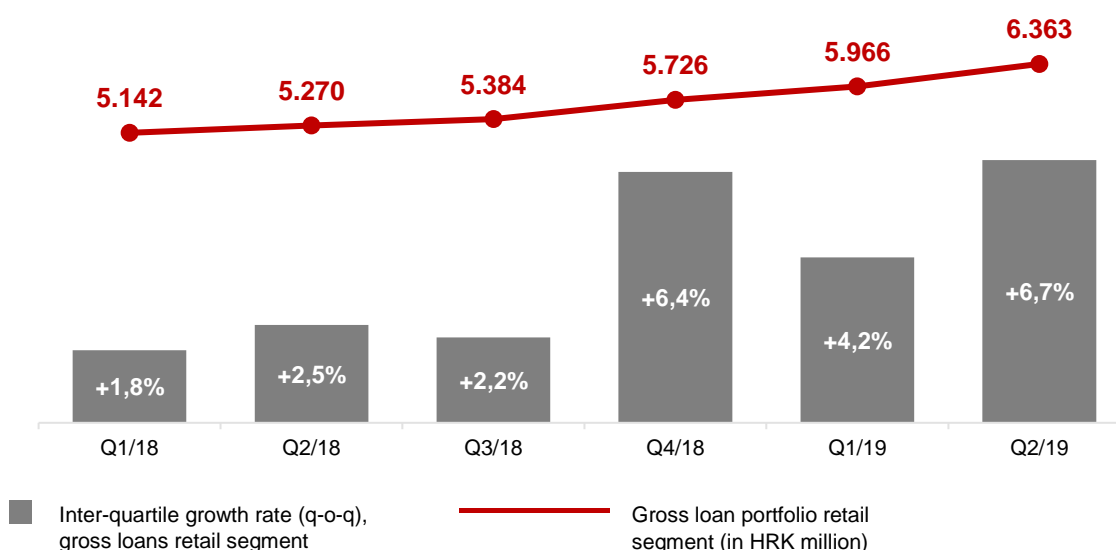

Provisioning costs for new and healthy placements in the interim are higher due to the continued increase in gross placements with customers, which is in line with IFRS 9. On the other hand, the emphasis on effective management of collection and credit risk leads to significantly lower provisions for partially recoverable placements, by approximately HRK 25 million. We continue to maintain coverage of bad placements at levels above the sector average (June 30, 2019 = 67.75 percent).

As of June 30, 2019, the Bank's assets amount to HRK 23.2 billion (+ 9.2%), with liquidity surpluses pouring into other interest-bearing forms of assets for which we achieve greater profitability.

Total gross loans grew + 10.0% compared to the end of 2018, where we are particularly proud of growth in our two strategic segments - retail and small and medium-sized enterprises.

The total increase in retail loans is + 11.6%, i.e. approximately HRK 700 million compared to the end of 2018, with housing loans increasing by + 13.6%. Over the past year, the Bank has strengthened its retail customer base by more than 30,000 customers, including clients we have acquired through the integration of Jadranska banka plc.

HRVATSKA POŠTANSKA BANKA, p.l.c.

The newly implemented SME operating and business model has made a significant leap in the market, showing an increase of 18.8% of gross loans in the first half of 2019. With the opening of two new entrepreneurial centers (Velika Gorica and Sveta Nedjelja), we are even closer to the client, and we have expanded our online services (online account opening and online loan application). In order to ensure optimal quality of service, we have established a Corporate Banking Academy, hold workshops with clients, and continue our cooperation with the HAMAG, EIB, EBRD and the Zagreb Stock Exchange, all in order to get closer to small and medium-sized enterprises in the Republic of Croatia.

Successful integration of Jadranska banka plc. contributed to the increase in the deposit base by HRK 1.5 billion compared to the end of last year. Household and corporate deposits continue to increase, with the trend of overflow from term deposits (-3.9%) to a vista accounts (+ 14.5%) continuing, which has a favorable impact on the average cost of sources. Household deposits increased by 13.7%, while corporate deposits increased by + 1.3%. Deposits remain the main source of funds for HPB (84.8%), with HRK deposits having a dominant share.

Bank's equity as at June 30, 2019 reached HRK 2,299 million, an increase of 14.78% compared to the end of last year. The most significant contribution to capital growth relates to net profit for the period, and an increase in the fair value reserve for securities valued at other comprehensive income.

HRVATSKA POŠTANSKA BANKA, p.l.c.

Continuing on the successful merger of Jadranska banka plc., during the first half of 2019, the project of merging HPB-stambena štedionica plc. started, as a continuation of the Group's business optimization activities through probable expected savings and more efficient resource management. Emphasis is placed on timely efficient migration and formal legal merger as soon as possible, with particular attention being paid to protecting clients who retain all existing rights.

C) Changes in accounting policies

IFRS 16 was adopted in January 2016 and replaces the IAS 17 Leases, IFRIC 4 Determining if the contract includes the leasing, SIC 15 Operative lease-incentives and SIC 27 Change in content of transactions including the legal form of leasing. IFRS 16 establishes the principles of recognizing, measuring, presenting and reporting of leasing and requires from lessees stating all leasing individually in the balance similarly as a financial leasing in accordance with the IAS 17. The standard includes two exemptions in recognition for a lease – asset lease of „low value“ (e.g. personal computers) and short-term lease, which is a 12-month lease period or shorter. At a date of beginning of a lease, the lease will recognize leasing liabilities and assets, which presents the right for use of principle assets during the period of leasing, which is right to use assets. Lessees will be obligated to separately recognize interest costs of liabilities for leasing and depreciation costs of right to use assets. Lessees will also be obligated to again measure the liabilities for leasing after certain events (i.e. change of leasing period, change in future leasing payments which are result of change in index or rate used for determining those payments). Lessee will be recognizing in general the amount of remeasurement of these liabilities as an adjustment on the right of use assets.

The accounting treatment of a lessor in accordance with the IFRS 16 remains unchanged in terms of the current in accordance to the IAS 17. The lessor will continue to classify all leases using the same classification principles as in the IAS 17 and will separate two forms of leasing: operative and financial leasing. IFRS 16 also requires from the lessee and lessor more extensive reporting than in line with IAS 17. IFRS 16 is put into force for annual periods that start at or after 1 January 2019.
